

# hfxALERT

## *Notifications when you need to know!*

### **Overview**

hfxALERT is the mass notification system for the municipality, keeping residents informed about emergencies and operations updates.

hfxALERT will send urgent and non-urgent notifications from Halifax Regional Police, Halifax Fire & Emergency's Emergency Management Division, as well as municipal winter parking ban notices.

---

### **How it works**

When an alert is issued, the system will attempt to reach you through all of the contact paths that you provided in your registration. You can receive notices via an automated phone call, text message, push notification (if you have downloaded the mobile application) or email.

## Sign up for alerts

Create an account and add your contact and location information into the hfxALERT system. All information you provide will be kept strictly confidential.

## Stop receiving alerts

You can stop receiving non-urgent alerts at any time by unsubscribing via your preferred delivery method.

Residents are urged to both sign up and download the app to ensure they are always in the know.
